

Distribution of 28 Million by the Wheat Pools.

WINNIPEG, March 10.—Nearly \$28,000,000 are being distributed today as an interim payment on wheat and flax by the Wheat Pools of Manitoba, Saskatchewan and Alberta, and the coarse grain pools of Manitoba and Saskatchewan, according to a statement made by E. H. Ramsay, manager of the Central Selling Agency.

"We are making a straight payment of 15 cents a bushel on all grades of wheat and flax," stated Mr. Ramsay. "The coarse grain pools made an interim payment in January on barley and rye and on oats, bringing the total already paid on oats up to 50 cents per bushel, 65 cents a bushel for barley and 85 cents a bushel for rye."

Total of \$800,000,000

Mr. Ramsay revealed in announcing the payment, that over \$800,000,000 has now been distributed by the three western pools since the Alberta pool started in 1923.

"Our receipts this year show a large increase in deliveries to the three pools over any previous year and a still greater increase in the amount of grain handled through the pool elevators." In Manitoba, Mr. Ramsay said, where the crop was so badly injured by rust that the wheat yield was almost cut in two, the 50 pool elevators have averaged more than a hundred thousand bushels so far this season, and in Saskatchewan and Alberta the pool elevators should average between a hundred and twenty-five and a hundred and thirty thousand bushels for the season.

Bigger Than 1927

"For the crop year 1927-28 the three pools have handled more than a hundred and eighty-five million bushels of wheat, which is nearly six million bushels over the entire amount delivered by the three provincial pools to the Central Selling

Agency for the crop year 1926-27," he stated.

"The Saskatchewan pool," Mr. Ramsay said, "is mailing checks to its members today for \$17,597,007, as interim payments on 116,378,945 bushels of wheat and 934,831 bushels of flax. For Alberta the figures are \$8,540,000 for approximately 58,000,000 bushels of wheat. The Manitoba wheat pool is paying \$1,257,763 on 10,651,755 bushels of wheat and \$1,995,000 on 298,171 bushels of flax."

New Variety Wheat Hoped Rust Proof.

A new variety of wheat which he thinks will be substantially rust resistant and at the same time be suitable for milling purposes, has been discovered by Dr. Seager Wheeler, of Rosthern, Sask. Dr. Wheeler made the announcement while speaking on the danger of rust in Western Canada at the annual banquet of the Northern Board of Trade last week. Dr. Wheeler announced that the new wheat is a cross-bred from Kota. He has been growing wheat for the past 40 years and for the last 20 has endeavored to obtain a rust-resistant variety. He states that this Kota cross-bred will be most likely what was desired by the western farmer. Experiments are being made with this wheat at Ottawa, Saskatoon and in Manitoba and Dakota.

Someone connected with the Boone, Iowa, Republican probably found it expedient to seek a new field of labor recently, after an account of a meeting of the "Elites" Aid appeared with this concluding paragraph: "Following the musical program, Mrs. J. T. Miller read an article on 'Personal Devils.' Seventeen were present."

C.G.I.T. PRESENT ENJOYABLE PROGRAM

On Friday evening, March 9th, a very enjoyable concert was presented by the local group of the C.G.I.T., at which the large audience gave evidence of their approval in no uncertain terms.

The main feature of the evening was a three-act play entitled "Patsy." Characters were portrayed as follows: Miss Joyce Moyle, the Maiden Aunt; Miss Nelda Huget, Susan, the Irish maid; Miss Marian Fisher, the Bride; Miss Hilda Birdsall, the Groom's sister; Miss Beatrice Shells, the Insurance Agent; Misses Sarah Stauffer, Evelyn Shantz, Annie Currie and Mabel Shells as the Bride's friends. The parts were well presented, and the manner in which the play was rendered showed much careful preparation on the part of the actors.

Two piano solos given by Miss Edna Ichn and Miss Dorothy Hanton were much appreciated. A delightful three-act tragedy was another feature of the evening. As was displayed the ability of the performers to portray the characters. These were as follows: The King, Miss Ethel Krebs; the Faithful Princess, Miss Holly Hunsberger; the beautiful Princess, Miss Dorothy Huget; the thug, Dan; Miss Margaret Greig; and last but by no means the least, the kitten.

A complicated fight was carried out by a group of the C.G.I.T. girls with military precision. Miss Ranton accompanied on the piano.

The last item on the program consisted of a camp-fire scene in which the whole group participated. The first part showed the girls seated around the camp-fire singing. Then a band of roving gypsies, attracted by the music, came into the scene. They entertained the audience during the remainder of the act with the legends and history of their people. The evening closed with "God Save the King."

A TWENTY-FOOT CONCRETE TOLL ROAD

Various points brought out in a discussion at Edmonton last week, in connection with the Alberta Trackways bill, show that the estimated cost of construction of the Calgary-Banff section of the line by E. Skarin, \$39,000 per mile, of which \$13,800 is for pavement, with reinforcing rods and fine grade; \$5,000 per mile for rough grade, culverts, bridges and fencing; \$600 per mile for right-of-way; \$2,000 per mile for engineering inspection and supervision. Mr. Skarin suggested the pavement be constructed of concrete slabs, seven inches thick with edges of nine inches, a longitudinal joint in the centre and an expansion joint at intervals of about 30 feet with a reinforcing bar along the edges of the slab, to prevent cracking.

The accountancy firm, on the basis of these construction costs, figured a total of \$2,500,000 as the total cost from Calgary west limits to a point between Cammore and Anthracite, the location of the park gates, a distance of 65 miles. Allowing \$80 per mile for maintenance, they figured the maintenance cost at \$5,200 per annum on the 65 miles.

Estimate of Revenue

On the revenue side they figured a total of 171,500 cars at \$2 each for a year would bring in \$343,000. But this did not include possible revenue from bus services, way freight, farmers and ranchers carrying produce to markets, and sundry operations such as refreshment stands, etc.

CHEAP FERTILIZER

Extensive experiments are to be carried out in the prairie provinces of Canada this year in the use of super-phosphates as fertilizer, according to W. J. Stephen, provincial field crops commissioner of Alberta.

It is said that a million tons of this material may be obtained yearly from

a large smelting plant at Trail, B.C., which could be delivered to farmers at a cost of less than two cents a pound. About 50 pounds is to be used to the acre.

The forthcoming experiments will be conducted through co-operation of government agencies and the Canadian Pacific Railway, along lines which already have been successfully employed in Australia and by the University of Saskatchewan, on a small

scale. Advantages claimed for fertilization by super-phosphates are the hastening of cereal crops to maturity, as well as enabling them to better resist extremely dry weather.

Cheap fertilizers are being demanded by agriculturists everywhere, and the experiments contemplated by the Canadian province will be watched with keen interest.

SETTLING the matter of men's wear FOR SPRING

THERE'S no better way of getting at what really is smart for Spring in men's clothing than by a glance over the new styles and patterns from the House of Hobberlin.

WORLD HAPPENINGS BRIEFLY TOLD

Canadian farm lands in occupation in 1927 are valued at an average of \$38 per acre in a Government crop report just issued.

The Winnipeg Presbytery of the United Church has adopted a resolution in favor of the ordination of women to the ministry.

Jules Cesare Joseph Laperre, a Belgian, accused of being a German spy during the Great War, was found guilty at Paris, and sentenced to life imprisonment in a fortress.

The Washington government appears unfavorable to any proposal for another conference of the great powers on naval disarmament before 1931.

Premier Taschereau brought a bill down in the Quebec legislative assembly which would grant municipalities the right to prohibit sign-boards advertising alcoholic liquor.

That the Canadian National Railways would, in the near future, purchase the Western Union Telegraph lines in the Maritime provinces, and add them to their own system, was the report current in Montreal.

Hon. T. M. Wilford, former Minister of Justice and leader of the New Zealand Liberal Party, arrived in Vancouver aboard the liner Aorangi, to make a study of Canadian conditions generally.

Asthma No Longer Dreaded. The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. So safe do they feel that complete reliance is placed on this true specific with the certainty that it will always do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it today and know for yourself.

Grain Moving Westward
Exports of grain through the port of Vancouver, B.C., during January totalled 14,183,183 bushels and for the 1927 crop shipping season to the end of the same month 36,459,044, both constituting new periodic records.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and, if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

Native Animals Increase In Parks
The operation of the national parks of Canada as game sanctuaries has demonstrated that the sanctuary idea is the most successful method of bringing back native animals once thought in danger of extinction.

The Least Excitement Made Her Heart Palpitate and Flutter

Mrs. Ambrose Orser, Elginburg, Ont., writes:—"I suffered for some time with a bad heart which seemed to be controlled by my nerves. The least little excitement would cause it to flutter and palpitate, and at times I would have real bad spells. I suffered in this way for some time when, one day, I saw

advertised, so decided to try them. I had only taken a few boxes when I noticed that I felt better, so I continued taking them and in a short time my heart felt entirely different."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Rushing Work on H.B. Road

Good Progress Has Been Made During the Winter Months

Work has been prosecuted all winter on the railway now under construction from the Hudson Bay Railway to the Flin Flon mining area in Northern Manitoba, and railways have been laid for a distance of thirty-five miles. It is stated that the survey of this line will be continued to Cold Lake, a distance of twenty-five miles beyond the Flin Flon Mine, with the intention of extending the road to that point. The line to Flin Flon is to be completed for operation by December 31. Work on the Hudson Bay Railway from Limestone Rapids to Fort Churchill has also been carried on during the winter, and good progress has been made in clearing the right-of-way and getting things in shape for an early start by the graders. Work on the harbor at Churchill has also been going on all winter, so that there will be permanent docking accommodation for ships by the time the railway has been completed.

The Sun Life

More Firmly Established On a Sound Financial Basis Than Ever Before

One of the most encouraging signs of the times for Canada is the substantial progress that continues to be made by our great banking and insurance institutions. The Sun Life Assurance Company of Canada has done record business during the past year, and its position is today more firmly established upon a sound financial basis than ever before in its history. When Canadians reflect upon the strength and solidity of their banks, and their insurance companies, the desire that these shall always remain Canadian is uppermost. It is indeed in the highest interests of the nation that they should never pass under foreign control. Canada needs capital, but not to be devoted to swallowing up our national identity. — Montreal Star.

An Attractive New Frock

This dainty frock for the junior miss will be found quite simple for the home modiste to fashion. There are two gathered ruffles attached to a straight foundation, and the square neck and short kimono sleeves may be bound with matching or contrasting material. No. 1722 is in sizes 6, 8, 10, 12 and 14 years. Size 10 requires 2 1/4 yards 36-inch, or 1 3/4 yards 54-inch material. Price 25 cents the pattern.

Our Fashion Book, illustrating the newest and most practical style, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

LESSON No. 19

Question: Why is emulsified cod-liver oil so wonderful a food- tonic for young girls and women?

Answer: Because it abounds in nourishing factors that are particularly beneficial to people prone to anemia and other conditions due to malnutrition.

Keep your system vitamin-nourished—take

SCOTT'S EMULSION

Big Cold Storage Plant

A cold storage plant to cost \$2,000,000 is to be erected at New Westminster, British Columbia, to care for fruit, dairy, meat and fishery products of British Columbia and the prairie provinces intended for export.

NEW STRENGTH FOR ALL WEAK GIRLS

Comes From the Rich, Red Blood Made By Dr. Williams' Pink Pills

There must be no guesswork in the treatment of pale, anemic girls and children. If your daughter is languid, has a pale, sallow complexion, is short of breath after slight exertion or on going up stairs, if she has palpitation of the heart, a poor appetite, or a tendency to faint, she has anemia—the medical name for poverty of the blood. Any delay in treatment may leave her weak and sickly for the rest of her life. When the blood is thin and watery give Dr. Williams' Pink Pills, coupled with nourishing food and gentle out-of-door exercise. The new, life-giving blood which comes from a fair use of Dr. Williams' Pink Pills, increases the appetite, stimulates the nerves and brings a glow of health to pale cheeks. Mrs. Robert Jackson, R.R. No. 5, Shelburne, Ont., praises this medicine for restoring her daughter's health. She says:—"When my daughter was nine years old she was so weak and thin that we feared we would lose her. She was very nervous, and going to school seemed too much for her. Often she would have to stay at home for days at a time. At times she would have a very high fever, and the doctor's treatment did not help her. I tried several remedies, but with no good results. One day a friend advised me to give her Dr. Williams' Pink Pills, and I did so. It was not very long after she began taking the pills that I could see a change for the better. She kept on taking the pills for several months, and through them grew into a strong healthy girl. Since then, if a tonic has been needed at any time, it has always been Dr. Williams' Pink Pills."

The pills are sold by all medicine dealers or will be sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

The average consumption of fruit in England is 93 apples, 67 oranges, 52 bananas and 15 lemons per person per year.

Sores Flee Before It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

A fore-and- aft rigged vessel, originally of two masts, but later with as many as seven, is called a schooner.

Fortify Yourself

Against Colds!

Toronto, Ont.—"I would have a spell of sore throat a couple of times every year, especially in the winter, and it would be a couple of months each time before I would fully recover and get my voice back. I doctored and took medicine with little relief until I began taking Dr. Pierce's Golden Medical Discovery and it has so completely relieved me of this trouble that I scarcely ever have a sore throat or suffer in any way from my former trouble. It has been worth its weight in gold to me."—Mrs. A. McDonald, 28 McMurrich St.

SUNDAY SCHOOL LESSON

MARCH 18

JESUS TEACHES SINCERITY

Golden Text: "Keep thy heart with all diligence; For out of it are the issues of life."—Proverbs 4.23.

Lesson: Mark 7.1-23.

Devotional Reading: Psalm 24.1-6.

Explanations and Comments

I. The Tradition Of the Elders Violated By the Disciples, verses 1-5.—Certain Pharisees and Scribes had come from Jerusalem for the express purpose, no doubt, of obtaining evidence which they could use against Jesus. They noted that the disciples ate food without first washing their hands, and one day they gathered about Jesus and asked him how it was that his disciples failed to follow the tradition of the elders, for they ate with hands defiled, ceremonially unclean because unwashed.

For the benefit of his Gentile readers, who were not familiar with Jewish customs Mark here in verses three and four gives parenthetically an explanation. Before eating the Jews washed their hands diligently (or, up to the elbow, Revised Version). This was not because the hands were actually unclean, but because they were ceremonially unclean. When they came from the market place, where they would come in contact with people whom they regarded as ceremonially unclean, they bathed before eating. They kept also all the regulations as to the washing of cups and pots and brazen vessels.

The Jews "held the tradition of the elders." Dr. Charles R. Erdman recalls the story of an imprisoned rabbi who was allowed the most meager amount of bread and water for his daily ration, and who used the water for bathing his hands instead of drinking it, saying that he had rather die than transgress the institutions of his ancestors.

"Fanaticism is easily awakened in the defense of Tradition. In the Church of Rome the ecclesiastical regulations, e.g., the Fasts and Feasts, or the celibacy of the clergy and the monastic vows, are enforced with a greater severity than the original requirements of the Gospel. The Roman Church, accepting the principle of Tradition, has made the precepts of men into doctrines to such a degree that the New Testament is rightly regarded as a danger to the laity. A passage like the one before us is subversive of Roman teaching."—R. F. Horton.

Corns are painful growths. Holloway's Corn Remover will remove them.

Recipes For This Week

(By Betty Barclay)

WINTER CHOCOPUD

- 2 cups milk.
- 6 tablespoons cornstarch.
- 1/2 cup sugar.
- 1 1/2 squares chocolate.
- 1/2 teaspoon vanilla.
- 1/4 teaspoon salt.

Mix dry ingredients, make into thin smooth paste with a little milk. Add to heated milk in top of double boiler. Add melted chocolate. Stir to prevent lumps. Cook 20 minutes. Add vanilla and pour into molds rinsed in cold water. Chill, serve with cream or whipped cream.

PUFF-BALLS

- 1 egg white.
- 4 oranges.
- 1/2 cup powdered sugar.

Peel small oranges, removing white membrane with outer skin. Beat egg white, slightly, using wire whisk; add sugar, gradually, and continue beating until meringue is stiff and will hold its shape. Thrust a long slender wire skewer through the centre of each orange; frost them completely with the meringue, and suspend them, by the skewers, across a narrow pan, and bake twelve minutes in a slow oven, being careful not to let them brown. Twist skewers gently to remove them. These oranges make a pretty dessert or supper dish.

The Oil Of the People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

Seeking New Trade

Most of the imported things that Canadians buy come from the United States. But our neighbors are not satisfied and the U.S. Department of Commerce is opening an agency in Winnipeg for the promotion of the sale of American goods in western Canada, believing that unto him that hath, the trade shall be given.

Buy Trees Direct

We grow our own nursery stock and sell direct to you—no middle men, no agents, no costly commissions that you have to pay for. Our sales plan saves money—you can buy your plantings direct from us and save up to 50%. Nothing but high grade, No. 1 stock, of proved standard varieties suited to Canadian conditions. All stock guaranteed true-to-name.

Grow Your Own Fruit

Plant fruit trees and berries this Spring—before you know it they will be producing delicious crops for table use and canning.

Tar Sand Deposits

The Marland Oil Company have been investigating the possibilities of the tar sand deposits on the Athabasca River in Northern Alberta, and contemplate establishing a plant for the extraction of oil based on a process that has been developed at Denver, Colorado.

The BABY

No mother in this enlightened age would give her baby something she did not know was perfectly harmless, especially when a few drops of plain Castoria will right a baby's stomach and end almost any little ill. Fretfulness and fever, too; it seems no time until everything is serene.

That's the beauty of Castoria; its gentle influence seems just what is needed. It does all that castor oil might accomplish, without shock to the system. Without the evil taste. It's delicious! Being purely vegetable, you can give it as often as there's a sign of colic; constipation; diarrhea; or need to aid sound, natural sleep.

Just one warning: it is genuine Fletcher's Castoria that physicians recommend. Other preparations may be just as free from all doubtful drugs, but no child of this writer's is going to test them! Besides the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold.

CHAPTER XX.—(Continued.)

The nausea that came over Helmi made her sway uncertainly, but she caught the back of a chair and managed to say, "Oh! it is all right; Jack left me lots of money; I really do not need it. I just thought I had better take it with me." She was holding her lips very tightly so they would not tremble. She even smiled, winking very quickly to keep the tears back. "I expect to meet Jack in the city," she resumed. "He has forgotten to mention to me that he sent for the money—but it is quite all right. I have plenty. Goodbye, Mr. Hamilton. It looks like snow, does it not?"

Helmi turned away quickly. The timekeeper called her back. "Say, Helmi," he began awkwardly, "don't think I am buttin' in or the like of that, but I just wanted to put you wise. That old bird of a magistrate at Bannerman has been shootin' off his mouth. It seems he claims he knows a lot about you. He says—Oh, well, I don't need to repeat what he says—he is drunk most of the time, and nobody should mind a word he says; but he declares you and Jack ain't legally married at all, and he insinuates that Jack sort o' tipped him off. Oh, I don't know the ins and outs of it, but I just wanted to warn you to hang onto your certificate, and then in case of a frame-up you have the deadwood on them all. You have the certificate, have you not?"

Helmi nodded, her heart was beating in her throat so painfully she was afraid he would see it.

"Well, then, you're all to the good. But I just thought I would warn you up on what was goin' round. We're all for you, Helmi—you know that!"

CARRIED WIFE TO BED

Suffered So She Could Not Walk. Restored to Health by Lydia E. Pinkham's Vegetable Compound

Mining, Ontario.—"I am a practical nurse and I recommend Lydia E. Pinkham's Vegetable Compound to suffering women. For three months I was almost helpless and could not sit at the table long enough to drink a cup of tea. Many a time my husband carried me to bed, I would be so weak. Then he read in the paper of a woman suffering as I did who got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and have had splendid health ever since. When I feel any bearing-down pains I always take it; sometimes a half bottle or whatever I need. It is my only medicine and I have told many a one about it. Any one wanting to know more about Lydia E. Pinkham's Vegetable Compound, I will gladly write to her. I do all I can to recommend it for I feel I owe my life and strength to it."—Mrs. NEAL BOWSER, R.R. 1, Mining, Ontario.

Do you feel broken-down, nervous, and weak sometimes? Do you have this horrid feeling of fear which sometimes comes to women when they are not well? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently will relieve this condition.

W. N. U. 1724

U.S. Investment Abroad

World's Debt To the United States Reaches Huge Total

The world's debt to United States investors, approximately \$25,600,000,000, is more than \$5,000,000 greater than was owed to Great Britain, when British foreign investments were at their peak, Dr. Max Winkler said in a report prepared for the Foreign Policy Association.

Exclusive of the so-called political obligations held by the United States Government, American investment in foreign securities in the first of the year aggregated about \$14,500,000,000. American holdings in Europe, approximately \$4,327,000,000, exceeded those in any part of the world. Canadian holdings by Americans are about \$3,922,000,000; South American, \$246,500,000; Central American, \$2,924,600,000; Far Eastern, \$276,500,000, and miscellaneous, \$63,400,000.

No high-grade tea can be expected to retain its full flavor and strength unless packed in moisture-proof, metal-lined containers. Successful tea planters ship their tea in aluminum—the same rust, dust and damp-proof material which keeps Red Rose Tea always so fresh, strong and flavory. a-w

she ran yelping down the track with her nose to the ties.

Helmi watched the poor animal until a bend of the road hid her from sight. Then she turned back into the darkened room sobbing, "Poor dog! poor dog!—just like me, forsaken. Men who go away should shoot all of us who love them!"

Helmi hired a horse and buggy the next day and drove down the valley to Bannerman. She would know all there was to be known. She would find out what the magistrate meant.

It was a glorious day of blue sky, with a high wind that came booming through the pass in the mountain, roughening the deep pools of the river as it rasped over them. Helmi loved its cool breath on her hot face. She could not be cast down on such a day. Her Jack had not fooled her—no matter what any one thought. Helmi told herself again and again that her great fear was that something had happened to him—her dear Jack, so white-skinned, clean and gentle.

Anyway, she would be brave. Next day was train day, too, and he might come. Twice a week the train came down to Eagle Mines from the main line. Helmi had so often watched it coming in, her heart in her mouth, that she had grown to dread train days, for during the last few months at the first ragged whistle that came wearily piercing the valley a violent nausea had seized her. As she now drew near her destination it came again. She thought of the Wymuths and their awful philosophy. Was all this part of her punishment? Was it all wrong? Had she done wrong? But still, everyone who was in the world had come the same way. Surely God wanted people, and yet, why did he punish women so? She sat still a while, letting the horse feed along the side of the trail.

The magistrate was at home. No, he did not remember her. Helmi Milander, a Finn girl, whom he had married to Jack Doran last March? No, he did not remember. He and his friend, Major Gowsett, looked at each other. The magistrate winked knowingly. "I think you are mistaken, girl," he said sternly.

Helmi handed him her certificate. "You gave me this paper," she said. The magistrate addressed his friend. "There's only one way to settle this, I'll look up the record. If I married her to this young man the record will show. A certificate tells nothing. Anyone can buy a certificate and fill it in."

He went to a dusty cupboard, whose open door revealed only a row of bottles, brown, with gold labels, gleaming evilly through the gloom of the room. With difficulty he found his record book and spread it before him on the littered table.

"You said March of this year?" "March the twenty-first," said Helmi, breathing quickly.

The pages were turned slowly. "I married no one on March the twenty-first," he said, looking around at her over his glasses.

"Look at other dates, then," said Helmi, trembling. "I may be wrong."

The two military men regarded her closely. "You are wrong more ways than one," said the magistrate, slowly. "Look—see for yourself—there is no entry of any marriage."

The quickest and most effective relief from Lame Back and all Kidney and Bladder Troubles is GIN PILLS. They promote health by restoring the kidneys to their normal action of filtering the poisons from the blood.

30c a box at your druggist's

A sudden fury came over Helmi. "You were drunk that day," she cried. "You were red-eyed and staggering! You forgot to write it down. You sent me out. You spoke to my Jack here while I sat outside. You mind I said 'Come outside to marry us.' You were cross and swore."

Major Gowsett interposed. "Hush, girl," he said, "you must remember Col. Blackwood is a magistrate. Your condition makes you hysterical. We're sorry for you, but you must not speak like this."

Col. Blackwood said not a word. He went again to the cupboard, and after fumbling among the papers there brought back a newspaper slightly yellowed. "I'll show you something, you hellcat," he said, slowly, taking his pipe from his mouth and laying it carefully on the windowsill.

(To Be Continued.)

Russia's "Man Of Steel"

Man Who Captured Leadership Has Become All-Powerful

Joseph Stalin, the Russian "Man of Steel," who is holding that troubled empire in his hands today was born in the year 1879, and his real name is said to be Dyhugashvili or Dzhogashvili. Probably he changed it because he preferred one easier to pronounce.

He comes from fighting stock, says an article in the London Daily Mail by Dr. Edward Luboff, an eminent chronicler of Russian affairs, who has known Stalin since his boyhood days.

Today he is all-powerful, not only because the Army and the Cheka are at his command, but because at the first sign of anti-Stalinism he puts into motion the party machine, which declares every opponent of Stalin an enemy of the party and of the Soviet State. As for his personal safety of late he has imported a whole regiment composed chiefly of Caucasian brigands. And it may be added that the Georgian brigands will fight to the death for the safety of a descendant of one of their comrades who has managed to conquer Russia.

MARCH WEATHER DANGEROUS TO BABY

Our Canadian March weather—one day bright, but sloppy, the next blustery and cold—is extremely hard on children. Conditions make it necessary for the mother to keep the little ones indoors. They are often confined to overheated, badly ventilated rooms and catch colds which rack their whole system. To guard against these colds and to keep the baby well till the better, brighter days come along, a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. The Tablets are a mild but thorough laxative which never fail to regulate the stomach and bowels and thus they relieve colds and simple fevers and keep the baby fit. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Gold Discovery in B.C.

During development operations on the Vahalla-Kleanzar mineral claim near Usk, Central British Columbia, high grade quartz showing much free gold has been disclosed in two parallel tunnels about 30 feet apart. The veins are from two to four feet wide.

On fishing trips take Minard's.

Purchases Totem Pole

Thirteen Foot Specimen Bought in Victoria By English Tourist

Picturesque British Columbia freight, product of one of the earliest of "home industries," was shipped from Victoria recently when an Indian totem pole consigned to W. R. Fisher started on its long voyage to England.

Mr. Fisher is one of the London directors of a fire insurance society and on a trip to the West Coast of Vancouver Island last summer he was particularly fascinated by one of the totem pole villages and he made it his business to secure a 13-foot specimen for the grounds of his home at Waterside, Bourne End, Bucks. The totem will be one of the few in England outside a museum.

Two American towns are named after Rudyard Kipling.

A man's temper improves the more he doesn't use it.

Little Helps For This Week

"But ye, brethren, be not weary in well-doing."—2 Thess. iii. 13.

Life is not living
Just for today;
Life is not dreaming
All the short way.

'Tis living for others,
To lighten their load,
'Tis helping your brothers,
And trusting in God.

—Hoadley.

Life is made up, not of great sacrifices or duties, but of little things, in which smiles, and kindnesses, and small obligations given habitually win and preserve the heart and secure comfort.—Sir Humphrey Davy.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

Auto Licenses in Alberta

During the past year 72,334 auto licenses were issued in Alberta, of which 9,961 were issued in Calgary and 8,517 in Edmonton. These figures will likely be surpassed this year.

Troubled With Painful Eruptions Cuticura Healed

"I was troubled with itchy, sore eruptions on my head for over a year. They were very embarrassing in company as I wanted to be scratching all the time, and if I did scratch them a watery fluid came from them. They were very painful, and my hair came out in patches. "I tried many remedies during that time but without success. I read an advertisement for Cuticura Soap and Ointment so purchased some. The irritation stopped after one week's treatment, and after using three cakes of Cuticura Soap and three boxes of Cuticura Ointment I was completely healed." (Signed) Miss B. Rendall, 309 Kensington St., St. James, Man., Sept. 7, 1927.

Cuticura Soap, Ointment and Talcum are all you need for all toilet uses. Soap to cleanse, Ointment to soothe, Talcum to powder.

Sample Each Free by Mail. Address Canadian Depot: "Bimbeaux, Ltd. Montreal." Price, Soap 50c, Ointment 25c and 50c, Talcum 50c. Cuticura Shaving Stick 25c.

A man can never remember what a girl said when she proposed to him.

LOCAL & GENERAL

K. R. McLean, R.O., Sight Specialist, 212 Herald Bldg., Calgary, will make his monthly visit to Didsbury on Saturday, April 7th. Office adjoining Dr. Evans. Phone 113, evenings, for appointments.

Staging a big dance, the I O O.F. will celebrate St. Patrick's Day, March 16th, in a manner befitting the occasion. Clemens-Bellamy Orchestra Five-piece Orchestra. Open to all. Everybody welcome. Come one, come all. Erin-go-bragh.

C. F. Cardinal, Dominion immigration officer, Calgary, was out last week on business connected with his department.

K. A. McLean, Calgary optician, was a business visitor here last Saturday.

Mrs. J. E. Liesemer left last week on a visit with friends at Coleman.

The weather has moderated considerably the past week. On Saturday indications pointed in a chinook, but towards evening a cooler temperature prevailed, resulting in a snow-storm on Sunday.

A patient, undergoing radium treatment at one of the Vancouver hospitals, walked out of the institution unseen one evening carrying around his head a band containing radium worth \$30,000.

If that man suffers from a swollen head, he at least has something to justify it.

Sundre, Elkton, Bergen, Westcott and other western points are all vigorously discussing the location of townsites should that railway scheme go through. Individual farmers are turning over in their minds substituting a cafeteria or a white lunch for the dairy cow. Others, taking a broader view, contemplate something of a more substantial nature. For instance, Fred Hyde, one hears, is spending his evenings busily engaged in figuring on the erection of a hotel. In fact, his plans have so far matured that he has approached one of the railway companies with his project, insisting that the erection of the building demands a subway from the depot. Ed Craig is actively assisting, more especially with outside features, the chief of which will be a well stocked "fishing hole." Being in a district where it is not affected by the "tide that regularly ebbs and flows," the hole will be supplied from the town pump.

Bebe Daniels in "Swim, girl, Swim," at the Opera House, on Saturday, March 17th.

On the afternoon of Saturday, March 17th, between the hours of 5 and 9, the ladies of the I O O.F. will serve an afternoon tea at the home of Mrs. W. J. Lowrie. Everyone is cordially welcomed.

Remember the Rebekah's Old Time Dance on March 30. Come and get old winter's last kick.

The sec.-treas. of the Community Hall School Fair has received word that the Rosebud School won the diploma for 1927 and Molly Pearson of the Gore School and Arthur Liesemer of Jutland School have been awarded scholarships.

At a meeting of Mountain View, M.O., on Tuesday, W. E. Flinn of Mayton was re-elected reeve.

During the past week Rube Lynch and Lee Swingle have both purchased Chevrolet coaches and a new Chevrolet landau has been purchased from the Adshad garage by Mr. Shantz.

H. C. Tonjum has taken over the management of the North-End Lumber Co.'s yard this week, and will be glad to meet any who care

to drop in. Mr. Tonjum arrives here from Herbert, Sask., and with an experience in the trade extending over twenty years, his advice no doubt will prove of considerable value to those that contemplate building.

On Wednesday, March 21st, at the Opera House, Jack Luden in "Shootin' Irons." A real western story.

J. W. Phillipson has accepted the agency for the Cockshutt farm implements and Adams wagon, and will have these on hand for spring operations.

Mr. and Mrs. Lykalbfleisch were the guests of Mr. and Mrs. J. V. Berscht last week.

Miss Evelyn Webster is visiting friends in Shouldice for two weeks.

Divine service will be held at St. Cyprian's on Sunday next, March 18th, at 11 a.m.

J. Clayholt returned last week from a visit to his sons in California.

A Red Cross tea will be held at Mrs. W. G. Liesemer's on Thursday, March 22nd, at four p.m. Tea for men will be served at six p.m. Everybody welcome.

A lecture on the Peace River district, illustrated with lantern slides, be given by Dr. McLaurin at Westcott on Sunday, March 18th, at 8 p.m., under the auspices of the Baptist Church. All are cordially invited.

Mr. Robert Moffat has again joined forces with Mr. Gavin Spence and they are in Didsbury this week. Phone orders to Pioneer office.

Mrs. C. F. Dooley returned last week from a visit with friends in Calgary.

Twenty-five years ago, on the fifth of the present month, Wm. Wigglesworth drove out from Olds and bought two quarter sections of land with thermometer registering twenty-six below.

Dave Irwin received a letter this week from Mr. Speakman, in which the writer intimates that in his visit to his constituency this summer he intends giving special attention to the south end of his riding. Friends will be pleased to hear that Mr. Speakman is now in good health and able to attend to his parliamentary duties daily. He is a member of a special committee on soldier's problems, and in this connection meetings are held every morning to take evidence and discuss possible improvements in the various acts which have reference to returned men.

Mr. Speakman is also working to get some consideration for a number of districts that require rural routes. He is also fostering a bill through the House (which, by the way, has already received its first reading) having for its object some construction on the Acme line north-west towards Red Deer, and east of Didsbury. This line has been asked for by the people in the district for a good many years.

Curling Notes.

Didsbury Lifts Macdonald Cup at Olds.

On Saturday night Didsbury captured the Macdonald Curling Cup from Olds. The score was 21 all coming home. McCloy, Didsbury, had finished his game with

Warren, Olds, winning 12-7. On the last end the score between Miller and Samis, Olds, was 9-14 for the Olds rink, and on the last end Miller counted 2 to take the cup.

Didsbury rinks: A. R. Kendrick, L. Sanderman, F. Kauffman, J. R. Miller, skip. A. Teskey, J. McGhee, George Julien, J. McCloy skip.

RED DEER HOLDS KREMER TROPHY

Red Deer curlers chalked up another win in their defense of the Kremer cup, Tuesday night of last week, defeating two rinks from Didsbury by a score of 29 to 24. McCloy, of Didsbury, won over Munn by two points, but his partner Kaufman lost to Fulton, Red Deer, by six points.

The local curlers now have eight victories in the Kremer cup competition, leading the next club by four.

Burnside

Mr. Ralph Long spent the weekend with Mr. and Mrs. Noah Eckel.

The Lone Pine Women's Institute met last Thursday in the new home of Mr. and Mrs. Joe Tobert. In spite of inclement weather there was an excellent attendance. Miss Annie McCulloch gave a splendid paper on Agriculture and plans were made for the supper and entertainment on March 16th.

The next meeting will be held in Lone Pine Hall on Thursday, April 12th. Roll call to be answered by "My favorite potato recipe." Mrs. Chas. Mardon will take the topic for the day, which will be "Education." All the Ladies of the community are cordially invited to attend.

Mr. Wm. McCulloch, jr., who spent a few days here last week helping Mr. Dinty Moore to move has gone to Carstairs, where he has taken a position on a tractor for the summer.

There will be a dance in Lone Pine Hall on Friday, March 23rd.

Mr. V. Torp is moving his stock and equipment off the Peter Liesemer farm which he had rented and will spend the spring with Mr. Kaspar Sauforth.

The Lone Pine W.I. supper and concert will be held on Friday evening, March 16th, instead of March 17th as previously announced. A splendid supper of cold meats, hot potatoes, etc., will be served from 6 to 8 p.m., and followed by an excellent program with artists from all parts of Alberta. Don't forget the date.

C. Y. SOON

Didsbury Curlers Defeat Innisfail Cup Contest

The fight for the Macdonald cup was continued at Didsbury on Tuesday night with Innisfail as the aggressor. Some good curling was witnessed, one or two exciting moments registered. The visitors however, failed to break down Didsbury's defence and lost by 7 points.

The defending rinks were skiped by J. R. Miller and J. McCloy and were comprised of the following:

ing: A. Kendrick, L. Sanderman, F. Kauffman, J. R. Miller, Didsbury. I. White, O. Watt, F. Kirkham, S. Kremer, Innisfail; score 12-10.

W. Teskey, J. McGhee, George Julien, J. McCloy, Didsbury; F. Watkins, J. Ingham, Dr. Key, E. Freeman, Innisfail, score 17-12.

Tonight (Thursday) Didsbury will have the honor of defending the cup against Three Hills.

Auction Sale.

Under instructions from
Mr. J. E. LIESEMER, DIDSBURY

I will sell by Public Auction at the farm, situated at north end of the town of Didsbury, about five minutes' walk from the C.P.R. depot. Train from south arrives 11.15 a.m., from north at 12.35 noon, and leave for north and south at 6.10 p.m.

Thursday, March 22nd,

THE HERD—The foundation herd was chosen from a carload of selected cows and bulls imported by Mr. Manhard from the Dairy Townships of Ontario and Quebec. The animals are from a long line of record-holding stock. Locally, careful feeding and breeding, with constant elimination of all but the best, has maintained and improved the high standard of the dairy herd. The sires, Champion Veeman Alcartra and Highland Re-echo Butterboy, will both be on exhibition. The former is grandson to May Echo Sylvia, whose record is 152lbs. of milk in her best day. The latter is grandson to De Kol Plus Segis Dixie, a world record cow. His dam has a record of 29.44 lbs. of butter, and 566lbs. of milk (testing 4.3) in one week.

"Fewer and better cows" has been the motto in building the herd. Actual money results in milk and cream production has proven that such a herd is the most economical.

CATTLE.

Florella Gerben, 20055, age 17 years. Official record of performance; 365 days at two years, butter 466lbs., milk 12,479 lbs.; 365 days at six years, milk, 25,854 lbs.
Lucy Gerben Alcartra, 174004, rising two years, daughter to above, by Champion Veeman Alcartra.
Canary Alcartra Sweetheart, 139378, three years.
Queen Schuiling Alcartra, 125462, six years.
Pontiac De Vries Pontiac, 56426, ten years.
Countess Segis Spoffard, 55999, ten years.
Elsie Alcartra, 123835, four years.
Victoria Floss Wayne, 138623, three years.
Margery Pontiac Erholm, 133011, three years.
Queen Sylvia Poseh, 119917, five years.
Highland Beauty Walker, 95952, six years.
Countess Segis Veeman, 139377, three years.
Pontiac Alcartra Veeman, 139376, rising three years.

DIDSBURY - ALTA

Notice of Impounding.

Impounded in the pound kept by H. Farrant, located on the S.E. 4-32-3-5, on the 23rd day of February, 1928, and sold on the 9th day of March, 1928.

Bay gelding, white face, right hind foot and left front foot white, branded 7K on right thigh, sold to Peter Johnston of Didsbury.

Bay filly, white face, no brand; Bay mare, no visible brand, sold to H. J. Tulley of Didsbury.

Impounded in above named pound on February 24th, 1928, and sold on March 9th, 1928, to H. J. Tulley, one bay mare, weight about 1050lbs., no visible brand.

For information apply to A. McNaughton, Secretary of Westerdale Municipal District No. 311, Didsbury, Alberta.

Toronto.—In accordance with his promise to Western Ontario tobacco growers, Hon. W. R. Motherwell has appointed a commission to investigate all phases of the tobacco-growing industry, for which two of the commissioners have already been named. The probe will extend to every phase of the industry, from seeding to marketing, and one of the most important features will be the effort to ascertain the best method of operating a proposed co-operative marketing pool.

Port Arthur.—Eventually Canada will produce a 1,000,000,000 bushel crop of wheat and will have no difficulty in finding a market for it, predicted Hon. T. A. Crerar, President and General Manager of the United Grain Growers Limited, and formerly Minister of Agriculture for the Dominion. Referring to the development of Western Canada, Mr. Crerar said there was no country in the world where so great a development had taken place in the past few years and there was no country having such great possibilities.

In order to meet the increasing popularity of the Canadian Rockies among tourists, and also to aid in developing trans-continental travel, the Canadian Pacific Railway will run a quintette of trains across the Dominion from Montreal, Toronto and Chicago to the Rockies, Vancouver and Victoria this coming summer. These trains will be "The Trans-Canada Limited", "The Imperial", the Toronto-Vancouver Express, and "The Mountaineer" and "Soo-Pacific Express" from Chicago. The Trans-Canada and the Mountaineer will be all-sleeping-car trains.

Vancouver.—"Maizie," the famous white Leghorn hen owned by the University of British Columbia farm, officially known as Hen No. 6, the world's champion layer with 351 eggs in a year, is proving a substantial revenue producer for the University of British Columbia. Last year the sale of pedigreed poultry stock from Maizie returned to the University \$2,225. Two of her cockerels fetched \$500 each when sold to Ohio poultry raisers, while another cockerel sold in New Jersey for \$300. The University receipts on sale of pedigreed British Columbia stock totalled \$7,225 for the year.

If a man didn't have a wife, he would probably never know that he had neighbors.

If you had a voice like thunder, with a Megaphone attachment you could not reach as many people as you can through our want ads.

You have not got the voice but our paper is at your service all the year around.

Here and There

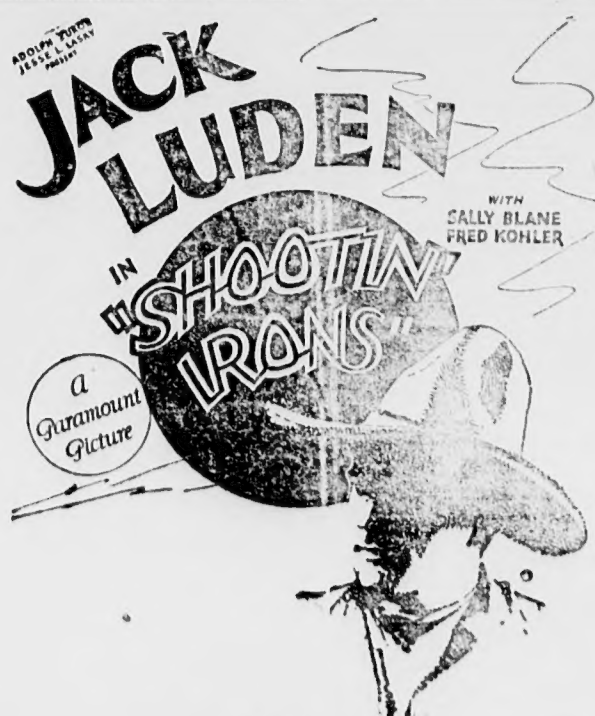

(20)
Invited to see Montreal by the hotels and the tourist and convention bureau of the city, 75 members of the Massachusetts Hotel Men's Association spent a week-end recently there and were given a royal reception. As their president, Emil Coulon, said, "We came to sell New England to Montreal, but you have sold Montreal and Quebec province to us."

During the usually quiet immigration months of December and January the Canadian Colonization Association colonized 75 families who took up land to the extent of 22,734 acres. In 1927 the Canadian Pacific Railway, through its land department and its subsidiary (the C. C. A.) placed 2,694 families on Canadian farms, this including 626 families averaging 5 persons to the credit of the Association and 1,529 families on C. P. R. lands.

The movement of British youth to Canada promises to be considerably heavier than usual, due to new arrangements made with the British Government. Ontario is taking 500 boys, Manitoba 50 and the Maritime Provinces and Saskatchewan an indeterminate number, while some hundreds are to be moved by private organizations. In all it is estimated some 2,000 boys will probably be brought out under the new scheme this summer.

Another body of sportsmen are finding Montreal and Eastern Canada good places in winter as well as summer. The Appalachian Mountain Club, of Boston, picked the best period of the winter season to spend a week in the Laurentians mainly devoted to skiing, but with sleighing, dog-mushing, and tobogganing thrown in. It was the first time they had ever visited this district in winter and they are going to repeat it.

Resignation of Colonel Walter Maughan as Canadian Pacific Steamship Passenger Traffic Manager has been followed by the appointment of William Baird, who was assistant European Manager of the Canadian Pacific Railway in London, Eng. Mr. Baird, whose appointment is effective March 1, joined the Allan Line steamship company at Glasgow as junior clerk in 1905 and came into C. P. service when that company took over the Allan Line in 1916.

Canada's Future

Canadians should take a big view of their country and its future. There should be nothing narrow nor small in their conception of the Dominion present or future, but rather our vision should be broad, large and courageous. The individual man who persists in looking out on life through blue spectacles, who can never see any possibility of success ahead because of obstacles in the path, who is forever contrasting his inferior position with that of a more successful neighbor, will be a failure. And what is true of the individual is equally true of a nation.

The habit indulged in by some Canadians, both in public and private life, of comparing Canada with its sixty years of history as a confederated unit with the United States with its 150 years of union, and Canada with its ten millions of people with the more than one hundred and ten millions in the United States, is just as absurd as it would be for a merchant established one year in business and with five employees to complain that his business turn-over was not equal to that of another merchant with a business of many years' standing and a staff of employees ten times as large. Yet many people persist in comparing Canada of today with the United States of today, instead of comparing Canada with the United States when that country was of the same age or had approximately the same population.

Comparing Canada with the present United States gives the latter the advantage, but the advantage is all with Canada when it is compared with the United States at the same age or with an equal population. Even making full and ample allowance for changed conditions resulting from science and inventions, discoveries and advancements of all kinds, the contrast is decidedly and greatly in Canada's favor.

For example, it was not until the United States had a population of seventy-five millions of people that its trade reached the figure which Canada now enjoys with ten millions of population. When the United States had a population only equal to that of Canada today, it did not cut much of a world figure; it was not a leader in any department of world production or commerce; rather it was engaged in the pioneer task of its own domestic development, and it would have been just as reasonable to decry the United States and its future then because it did not measure up to the older countries of Europe, as it is now to decry Canada and its future because it has not already attained to the stature of the United States.

Young in years and small in population, Canada is today a real factor in world affairs. It has outstripped the United States and all other countries in the manufacture of paper, it has become the world's greatest exporter of wheat, it is the chief source of the world's supply of nickel and asbestos, year by year it is overtaking the United States in the production of gold and is not now far behind. For some years past employment has been as general as in the United States, and in the last two years has been even better. Canada today finances itself to an extent the United States was not able to do until it was many times our size.

Nowhere else in the world are there two nations living side by side, speaking the same language, with the same monetary system, and having similar customs and ideals. Yet there are people who profess surprise that there is a constant exchange of population across our international boundary line, and that the larger and more powerful magnet of the United States should attract the greater number. It would be against all reason and nature if it were not so. Yet we make bold to predict that the day is not far distant when Canada will prove the more powerful magnet of the two, and population will flow from the United States into Canada in a greater and more steady stream than has ever flowed southward.

Paradoxically, many of the very people who deplore any exodus of Canadians to the United States, at the same time object to United States people and capital coming to Canada because of a fear that Canada will thus become Americanized. Others object to Canadian capital being invested in the United States or other countries, claiming it should be kept at home for investment and development purposes.

In all this is to be seen an attitude of doubt, of fear, a spirit of "little Canadianism," expressive of an inability to stand on one's own feet. It is an attitude which, were it at all general, would inevitably drive the self-reliant, forward-looking youth of Canada out of the country. Such people would do well to throw away their blue spectacles, and realize that Canada is on the map of the progressive nations of the world to stay. They should become inculcated with the considered opinion of the Prince of Wales who recently declared: "Canada is on the threshold of one of the most astonishing eras of expansion and development ever seen. Exactly how long that will take none of us know, but certainly it will occur in the lifetime of many of us."

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

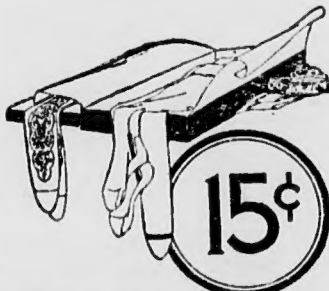

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Northern Saskatchewan Development

Provincial Government Is Planning To Aid Mineral Prospectors

The new department of industries of the Saskatchewan Government is planning to aid mineral prospectors in the northern sections of the province. In conjunction with the Dominion Government, aerial surveys will be continued, and it is hoped that the whole north-eastern mineral area will have been surveyed and reduced to geographical maps by the end of next year. The department is getting itself in the position whereby it can be of every assistance to the prospector and investor. At the present time there is very little accurate information of Saskatchewan northern mineral areas. Recognizing that great development can be looked for both in these areas and the western mining areas of Northern Manitoba, the provincial department is speeding up aerial mapping of the territory as well as the plans for its own provincial activities in the coming season. The minister states it is the intention of his department to place its facilities at the disposal of the prospector and the investor. "The miner will be given every possible assistance," said Mr. Spence, "at no cost to himself to develop his proposition. We will assist him through our experts at the university and do everything possible to place him in the position of developing any proposition which appears to have evidence of successful working out. To the capitalist the department will be prepared to offer to assist in developing water powers and coal fields and to co-operate in every way."

Silk Stockings

Have stockings in the very newest shades; your old or faded stockings given any tint in the rainbow in five minutes; with fifteen cents' worth of Diamond Dyes! but use dyes, not synthetic tints. And be sure they're true dyes.

Try a pair tonight! Use Diamond Dyes, and no one will dream they were tinted at home. And you can do real dyeing with just as perfect results. If you will just use the true Diamond Dyes.

Free: Why not ask your druggist for the very useful Diamond Dye Cyclopaedia? Valuable suggestions, easy directions, and piece-goods sample colors. Or write for free copy of Color Craft, a big illustrated book sent postpaid—address DIAMOND DYES, Dept. N13, Windsor, Ontario.

Diamond Dyes

Just Dip to TINT, or Boil to DYE

Growth Of Wheat Pool

Now Has a Membership Of 140,000 Farmers

The most recently compiled returns show that the Canadian Wheat Pool has a membership of 140,000 farmers with a wheat acreage under contract of 15,500,000 in the provinces of Manitoba, Saskatchewan and Alberta. The Pool operates 942 country grain elevators with a total capacity of 30,000,000 bushels and ten terminal elevators with a total capacity of 23,000,000 bushels. During the last crop year the Pool shipped 124,000,000 bushels of grain to 24 countries through 60 ports of the world, 50,000,000 of which went to the British Isles.

Canadian Nationality

To the unanimous national protest against the objectionable practice of census statisticians in refusing to recognize such a thing as a "Canadian" nationality, the government must pay heed. It is absurd to style a child whose grandfather was an Englishman married to a Scots woman; whose father was born in Canada and married a Swedish woman, as English. The lad is a Canadian, second only in standing to the North American Indian.—Western Producer.

Keep Minard's in the Medicine Chest.

W. N. U. 1724

ASPIRIN

Headaches may be swiftly and safely relieved by an Aspirin tablet. A most efficient remedy, and there's no after effect; its use avoids much needless suffering. Try it next time; see how soon its soothing influence is felt. Just as helpful when you have a cold; neuralgia, neuritis, rheumatism, lumbago. Just be certain you get real Aspirin—the genuine has Bayer on the box, and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin;
it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

Excursion To Sweden

Many Are Planning To Revisit Native Lands On the Baltic Sea

Rev. Oscar Gunnerfelt, of Winnipeg, is organizing a special midsummer excursion to Sweden, Norway, Denmark and Finland, which is to leave Winnipeg about May 14, by Canadian National Railways, and will sail from New York May 21, on the S.S. Drottningholm. Already quite a number of applications have been received for reservations, and it is expected that a large party from Western Canada and Minnesota and North Dakota will take advantage of this opportunity of revisiting their native lands on the Baltic sea.

Minard's Liniment kills warts.

Wins Many Prizes

Widely Known Horseman From Brampton Will Reside In Saskatchewan

W. J. McCallum, the widely known horseman of Brampton, Ontario, and Regina, Saskatchewan, has completed arrangements whereby he will permanently reside in Regina and have his stables there as a distributing point. Mr. McCallum entered over 100 horses at the Royal Show, Toronto, last fall, filling three stables with his own importations. No exhibitor ever won so many championships and prizes as he won at that show.

It is much easier to be critical than to be correct.

Curious New Lifeboat

Invention Of Ship's Carpenter Said To Be Unsinkable

A ship's carpenter, after 60 years at his trade, has invented a new lifeboat of a very curious kind.

It is practically two broad, shallow boats fixed bottom to bottom, so that as one half is capsized the other half is righted. It is said, however, to be practically impossible to capsize it, still more to sink it. In the double bottom are valves which will let the water out but will not let it in which ever way up the boat is; and there are tanks for fresh water and food which can be reached whichever side of the boat may be uppermost.

In a moment of weakness the Hamilton Herald advocates 'Amn't I?' as a substitute for "Am I not?" That paper ought to have its head x-Amn't.

This Discovery Will Benefit Millions

Mr. W. J. Dorion, New York, writes: "Sick headache, indigestion and constipation have troubled me for years. I tried everything but truthfully your purely vegetable laxative pill is the best daily regulator I have ever taken."

SITUATION IN THE NEAR EAST LOOKS OMINOUS

London.—The stern note which Great Britain presented to Egypt, stating in effect that the British will not grant full independence to that country at present has been coupled with the "holy war" in Arabia to create a situation which may affect British relations throughout the Near East to the borders of India.

Despatches from Egypt assert that the political situation there is fraught with confusion, uncertainty, and excitement. Egypt is without a cabinet, but the Nationalist leader, Nahas Pasha, after an hour's audience with King Fuad, declared that constitutional governments would be formed as long as the constitution exists.

The British note, which apparently dropped like a bombshell in Cairo political circles after the breakdown of negotiations for an Anglo-Egyptian Alliance, makes it clear to the Nile country that Great Britain will not tolerate any legislation that is likely to hinder British power in protecting foreign life and property in Egypt. The note reveals that the British Government has for some time feared that such legislation would be adopted by the Egyptian parliament. But so long as there was prospect of a treaty of alliance, Britain refrained from expressing these fears.

Well informed British observers believe that the home government now has said her final word and that the burden of the next move in the imbroglio rests in Egypt. Shorn of diplomatic verbiage, the position is about as follows:

Egypt declines to sign any treaty of alliance which does not accord absolute independence to her. She rejects the right of Great Britain to maintain troops in Egypt or to have any control over the Egyptian police.

Britain, on the other hand, firmly intends to keep her troops there, believing the soldiers are necessary for protection of the Suez Canal. She also insists on maintaining a measure of control over the Egyptian police and observers explain that this is to prevent any situation arising which might result in some other power taking a hand in Egyptian affairs.

Whether Egypt signs such a treaty or not, Great Britain will stick to these demands, in the opinion of British observers.

Pictures Cannot Be Shown

Photos Of Lieut.-Col. Amery's Tour Will Not Be Exhibited

London.—In connection with the recent Empire tour of Lieut.-Col. L. C. M. S. Amery, secretary of state for Dominion Affairs, photographs of various places and interesting incidents were taken by Captain William Brass, M.P., former private parliamentary secretary to the Minister of Health and the Chancellor of the Exchequer, who accompanied Col. Amery on the tour. It was proposed to exhibit the pictures within the precincts of the House of Commons. Now, however, permission for the exhibition has been refused by the Lord Chamberlain, the Earl of Cromer, with whom the decision on the matter rests.

Sterilize Feeble Minded

Edmonton.—Following one of the stormiest passages that any measure before the Alberta House has been accorded in recent years, the Sexual Sterilization Bill was given third reading and will be put into effect as soon as it has been assented to by the lieutenant-governor. By this action of the legislature, Alberta becomes the first province in the Dominion of Canada to undertake sterilization of the feeble-minded.

Gift For Medical Research

Stockholm.—At the request of the monarch himself, Sweden's birthday gift to King Gustav V. will be devoted to work for suppression of cancer. A national subscription for the fund in honor of the king's 70th birthday, June 16, has been started, and the king has accepted in advance, on the promise that the money be used for medical research.

W. N. U. 1724

Saskatchewan House Prorogues

Thirty Bills Were Put Through In Final Session

Regina.—With traditional dignity and solemnity His Honor Lieutenant-Governor Newlands prorogued the third session of the sixth Saskatchewan Legislative Assembly. Since January 24, thirty three sittings were held during the session, including 11 night sittings, four morning sittings and a Saturday sitting.

The closing ceremony came after a long busy day during which more than 30 bills were put through the closing stages and passed. One of the last items of business transacted by the House was the passing of supplementary estimates totalling \$1,138,518 to cover expenditures already incurred. These were put through with little interruption, except a question now and again as to how the money was spent. An item of \$11,500 was required for the Power Commission's work. The main items included \$55,208 for the Treasury including a grant of \$10,000 to the Canadian National Institute for the Blind, and \$25,198 for Freight Rates Inquiry; \$500,000 for the Farm Loans Board; \$193,000 for the Educational Department; \$52,220 for the public health department.

Votes totalling \$24,300 were included in additional estimates to bring the indemnities for members of the Legislature up to \$2,000 a year from \$1,800; to provide \$3,000 for leaders of the Opposition and to give the Premier an increase of salary from \$6,000 to \$7,200 a year. These increases were discussed a day or two ago when it was pointed out that Saskatchewan members were the lowest paid in any legislature west of the Maritime Provinces, and Howard McConnell, the member for Saskatoon, declared Premier Gardiner, while the hardest worked man in the province, was poorly paid when there was no reason for the province to be too niggardly.

New Discovery At Flin Flon

Another Ore Body Located Said To Be Important

Toronto.—Reports from Flin Flon Mines are that a new ore body has been located south of the main ore body. It is stated that the new find is one of considerable importance. Development work is being pushed forward energetically. On the 400-foot level a crosscut 240 feet in width has been drifted on for a length of approximately 300 feet. The average value obtained has been 2 per cent. copper and some zinc, but some sections are of much higher grade, one of 28 feet width running between 5 and 6 per cent. copper.

The work of preparing a new townsite is well under way, and sites have been selected for the concentrator and smelter. The present camp buildings will be removed to make room for the new plant.

Banking System Discussed

Government Inspector Says Nothing Wrong With Present System

Ottawa.—C. E. S. Tompkins, government inspector general of banks, appeared before the House of Commons committee on banking and commerce and submitted to questions by the members. The banking system, as it existed, met the needs of the country, he told the committee. Of course, from time to time changes were necessary but he could not see anything radically wrong with the system.

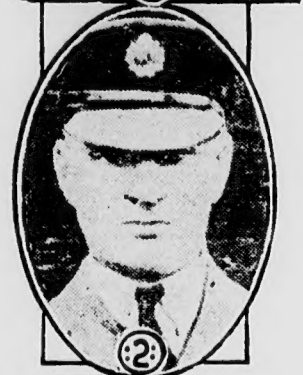

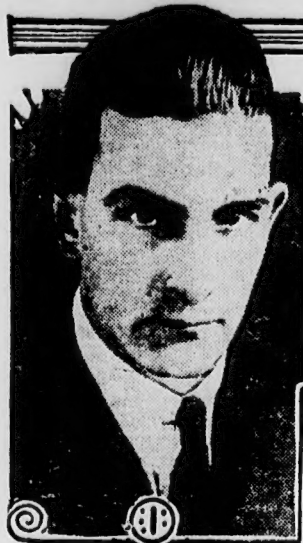

The views of the Canadian Council of Agriculture with respect to banks and banking were presented by A. E. Darby, director of economic research for the council.

Pioneer Missionary Dead

Winnipeg.—Rev. Dr. John McLean, historian and pioneer missionary of Western Canada, died here following an attack of influenza. Dr. McLean, who was in his 77th year, since coming to Canada more than 50 years ago had been prominently connected with the activities of the Methodist Church in the Dominion.

The domestic market absorbs annually \$837,000,000 worth of Canadian agricultural products as against \$600,000,000 worth exported. The value of the per capita consumption of farm products in Canada amounts to \$87.50.

Daring Aviators Return To Safety

Flying Officer A. Lewis (1), and Flight Sergeant N. S. Terry (2), crew of the Fokker plane Saskatchewan, who were missing since February 17 until March 1st. Their plane being wrecked, they managed to travel overland sixty miles to Port Burwell, after suffering incredible hardships.

Government Bill Criticized

One Day's Rest In Seven Bill Does Not Please Manitoba Laborites

Winnipeg.—Though it was given second reading the Bracken Government's bill for one day's rest in seven for certain employees was severely criticized by the Labor and Conservative leaders in the legislature.

Under the bill, declared John Queen, Labor leader, the bill only applied to employees already getting one day's rest in seven. Mr. Green described the bill as "a bluff," the work of an unsympathetic administration.

"The bill," said Mr. Queen, "applied to piano and organ factories, though there were none in the province. Why not, on the same principle, apply it to shipbuilding, the building of dreadnaughts and submarines? Let us have a real act, when we are at it."

Fight Destructive Insects

Ottawa.—The fight against the destructive insects which prey upon Canadian crops was described by Arthur Gibson, Dominion entomologist, to the convention of the Canadian Horticultural Council here. The use of the aeroplane for dusting in an endeavor to rid the crops and soil of certain insects was experimented in last year and proved quite promising.

Escape Death When Airplane Crashes

Eight Passengers On London To Paris Flight Were Uninjured

London.—Eight passengers of an aeroplane flying from Paris to London had a remarkable escape when the machine crashed in a field near the Lympne airdrome in Kent. Baroness Van Till Canech Kavanagh, of the Hague, was cut in the face by glass, but the other passengers were uninjured.

Trouble was experienced when the plane reached the French coast, and its speed was reduced. Near the airdrome the left wing suddenly dipped, and the plane spiralled rapidly toward the earth. It crashed and bounced several times after the wing struck the ground. The passengers were jolted all over the place and the baggage tumbled about.

Unconcerned, the pilot, Roger Maury, climbed out of the cockpit, opened the passengers' door, and all scrambled to safety, fearing the machine might catch fire as both engines were wrecked.

Later Pilot Maury explained that a valve spring in one of the engines had apparently broken.

Infant Princess Dies

Six Months' Old Daughter Of Emperor Of Japan Succumbs

Tokio, Japan.—The six months old daughter of Emperor Hirohito of Japan, is dead. "Complications following pneumonia," was assigned as the cause of the death of the Imperial baby, who had been critically ill for several days.

The child was originally attacked by influenza, from which the emperor himself also suffered, together with thousands of Japanese people. It was announced that the emperor was convalescent.

At the bedside of little Princess Hisa were the Empress and other members of the royal family. There will be no official mourning as the child was under seven years of age, and no public mourning. Interment will be under Shinto rites at Asakawa, near Tokio, where the late Emperor Taisho is buried.

Mine Chief Admits Laxity

Hollinger Disaster Due To Order Not Being Enforced

Timmins, Ont.—Charles Williams, Hollinger's general superintendent, admitted to the Royal Commission inquiring into the Hollinger disaster, that there was a "very bad slip up" from himself down to the transportation men, when his orders about disposal of powder house rubbish had been disregarded.

Instead of putting the rubbish in the waste pass or else mixed with rocks in the stopes, it had been put in the stopes without any rocks, and as a result had started the fire which snuffed out the lives of 39 miners.

Williams could not say who was responsible. Williams said he knew of no one who could give further information when it was suggested the commission adjourn so that it might conduct an inquiry there.

Australian Rugby Team Here

Nothing but praise for the sportsmanship of Old Country people was expressed by the Waratahs, New South Wales, Australia Rugby Team, when they arrived in Canada recently on the Canadian Pacific Steamship Melita. During their nine months' tour of Great Britain and France, where they played 33 games with record crowds in attendance, sometimes exceeding fifty thousand, they

much appreciated the sportsmanlike behavior of spectators.

E. Gordon Shaw, manager of the team, said: "The British crowds were about the most fair-minded and unprejudiced I have ever seen. If a referee ever gave a decision that was perhaps a shade on the doubtful side in our favor, there were never any demonstrations of discontent. I have nothing but unstinted admiration for the whole-hearted sportsmanship of our treatment on the other side."

REPORT TELLS OF SEARCH MADE FOR AVIATORS

Ottawa.—Beacon's burning on mountain tops and rockets were used to spread the news of the seeming tragedy all over the North land, and officers of the Royal Canadian Air Force did all that was humanly possible to locate Flying Officer Lewis, Flight Sergeant Terry and the Eskimo "Bobby" when they were missing, according to the latest radio reports to reach Ottawa from the Hudson's Straits air base at Port Burwell, Ungava.

In a lengthy report of steps taken to find the trio, Squadron-Leader T. A. Lawrence, of Ottawa, who has charge of the R.C.A.F. detachments in the north, detailed areas covered by aeroplane and dog team. Every section of Ungava and Ungava Bay within an area of 200 miles were searched. Dog teams with Eskimos were sent out to establish caches of fuel and supplies, and to warn Hudson's Bay posts and Eskimo villages that the airmen were missing.

Bonfires were kept going from a high point behind the Port Burwell base at night. Flares and distress signals were fired off until this had to be suspended through shortage of fuel and flares.

Squadron Leader Lawrence tells of the part played by Flight-Lieutenants Brian Carr-Harris, Ottawa, and A. A. Leich, Winnipeg, in the search, and adds, "great credit is due to members of the Royal Canadian Mounted Police, Mr. C. Ford, manager of the Hudson's Bay Company's post at Port Burwell, Capt. W. Bennett and crew of the C.G.M.M. steamship Canadian Raider and the natives of the whole district for their untiring assistance in search of missing personnel. Personnel have now entirely recovered from their harrowing experience."

In official circles here it is believed the plane which the three men were forced to abandon will be washed up on the shores of Labrador or Newfoundland in due course, or the wreckage picked up at sea. The ice on which it was deserted was being borne southward by the Labrador current, and it would thus probably remain visible on the surface of the ocean for several months at least.

Woman Liberal Elected In Britain

Mrs. Walter Runciman Successful Candidate In St. Ives

Penzance, Eng.—The first woman Liberal in the present British Parliament and the first husband and wife combination in the House of Commons have resulted from the recent by-election in Saint Ives.

Mrs. Walter Runciman, wife of the Liberal member for Swansea West, not only became the first woman Liberal in the present House, but succeeded in capturing the St. Ives constituency from the Conservatives.

The district formerly was a Liberal stronghold, but returned a Conservative at the last general election in 1924.

Mr. Runciman, who is a prominent figure in the Liberal party, actively supported his wife's candidacy.

Boy Inherits Millions

Young Son Of New York Millionaire Receives Legacy

New York.—A five-year-old boy today had joined the ranks of American millionaires. John Mortimer Coward, 3rd, of Glenridge, N.J., is to receive at least two-thirds of the more than \$4,000,000 estate of his father, J. Mortimer Coward, late head of the Coward Shoe Stores, who died in Havana recently.

Part of the fortune which the five-year-old boy inherits is \$1,000,000 from an insurance company policy his father took out last July. Mr. Coward was 28 years old.

Want Holiday November 11

Ottawa.—"In view of the request of the Canadian Legion, is it the intention of the Government to declare November 11 (Armistice Day), a National Holiday?" asked H. J. Barber, Conservative, Fraser Valley, in the House of Commons. He was informed that the matter is still under consideration.

Toronto.—The Province of Ontario is at the close of the greatest gold producing year in its history, according to officials of the Department of Mines, who forecast an increase in gold production this year of \$2,000,000 as compared with last year's output. In addition, the total mineral production is expected to be more than \$91,000,000—a gain of \$8,000,000 over 1922.

Boys and Girls' Swine Clubs are now well established here. Calf Feeding Clubs are also on the increase and it is expected that in 1928 the latter will attain the same number in the province as the former. Egg marketing circles are also being organized and much good work is already reported. These should prove a valuable aid to the poultry industry.

Preparations for the Banff Winter Carnival, to be held February 4-11, are well under way. Canadian mushers are training and intend to make a strong effort to bring back to Canada the "Strongheart Trophy" which was carried to the United States by Warren Cording, of Ashton, Idaho. It is anticipated that there will be several teams from the United States competing again this year.

Saint John.—An epoch in the transportation of cargo between Canada and the United Kingdom was felt here recently when W. R. MacInnes, vice-president in charge of traffic of the Canadian Pacific Railway; W. A. Wainwright, assistant to the chairman, with other officials of the railway, inspected the C. P. fast cargo liner "Beaverburn," which recently docked here, completing her maiden voyage.

Church Announcements

Evangelical Notes

Rev. Hall of the Mennonite Conference delivered a most excellent sermon in the Ev. Church last Sunday morning from what, he said, was one of his favored Scripture passages. It had to do with three losses—"The Lost Coin, The Lost Sheep, and The Lost Boy."

"The Greatest Thief in the World" is the pastor's sermon subject for next Sunday evening. This is the third sermon in his present series on "Five of the greatest things in the world" as applied to moral life.

March 31st, is the closing date of the old conference year. This reminds us that all our church dues and offerings for local or conference support should be paid in before that date. All concerned will please accept this gentle reminder. Up to date, the missionary receipts far exceed those of any previous year in the history of Didsbury Ev. Church.

Knox & Westcott

Sunday, March 18th—Westcott, 2.30 p.m. Didsbury, 7.30 p.m.

The minister is taking for his theme "The Judges of Jesus." Address the next man you meet as Judas, and he will probably be angry. Address him as Peter, and unless that is really his name he will simply be amused at your mistake. It is because Judas has indelibly stained his name with the suggestion of treachery; and all the world hates a traitor. The subject deals with character study and is of great interest.

The annual meeting was held at Westcott, Tuesday, March 13th. R. A. McFarlane, Wallace Hughes, and J. H. Robertson were elected to the Board of Managers. It was decided to hold services every other Sunday at 2.30 p.m. in order to make a better working arrangement for the field. A short program was given after which a luncheon was served.

Lutheran Church

Westcott at 10.30 a.m., in German; Didsbury, 2.20 p.m., in German. Didsbury at 8 p.m., in English.

Sermon subject: "The Disciple who would not deny."

The story of the fall and rise of Peter has ever been one of more than passing interest to Christians. The circumstances surrounding this disciple in the hour of his trial, as well as his rise from sin provoked as it was by the Saviour's look and followed by bitter weeping are such that each sees in them a striking resemblance of his own case.

It is hoped that a congregation even larger than that of previous Sunday will assemble to profit by the admonition and encouragement of the story.

WHO WILL BUILD IT? C.N.R. OR C.P.R.?

The desire of the farmers of Sundre and points adjacent to learn more of the aims and activities of the Foot-hills Railway Board was abundantly satisfied last Tuesday afternoon in Sundre hall when Mr. W. H. Davies, president of the board, gave an extremely lucid and comprehensive summary of the matter.

It may interest many who were not at the meeting to know that the C.P.R. and C.N.R. have both made comprehensive surveys of the possibilities of the region west of the C. & E. (entirely as a result of representations made by the board) and have checked up considerable data carefully compiled by Mr. Smith, Mr. Davies and their confreres.

In the course of his remarks Mr. Davies commented on the fact that the C.N.R. has had certain data in their possession for some time past as a result of an old survey they had made some years ago. He said he would greatly like to know the exact location of the old survey, but no one at the meeting could satisfy him.

Briefly, the results of the activities of the board may be summarized thus:

C.P.R. interested sufficiently to make extensive surveys and definitely promise to apply for a charter to build a stub line from a point at or near Airdrie north and west to a point on the Raven.

C.N.R. likewise interested to promise to apply for charter to build a similar stub line running from a point at or near Eckville south to a point at or near Cremona.

Mr. Davies would not commit himself as to the merits or demerits of

ATLAS LUMBER CO. LTD.

SPRING

Is here and all its needs
come too.

In way of posts, poles, oak eveners or lumber
for repairs

Then comes Barns, Houses, and general farm
building. We keep anything you need and
will freely give you building estimates and
any advice you may need

either project. He reserved comment and merely stated that the scene of operations now shifted to Ottawa.—Odds Gazette.

FIRES FARM BUILDINGS THEN SUICIDES

After hearing statements by the son of deceased, and by two neighbors, and by Constable L. E. Ham-mick, Dr. J. L. Clarke, coroner, of Didsbury, held that an inquest was unnecessary in the case of Chris. Weiker, a farmer, who resided in the foothill country, west of Didsbury, and gave the necessary death certificate and an order for burial.

Weiker was found dead near to the burned house and outbuildings on his farm, shortly after noon on Tuesday, March 6. He was lying on his back, with a revolver, in which one cartridge had been discharged, grasped in his right hand and a bullet hole

through his right temple. A neighbor, C. J. Erickson, who resides about a mile and a half from the Weiker place, noticed smoke coming from the direction of the Weiker farm about 8:30 in the morning, and sent one of his men, Olaf Sandy, to investigate. He returned saying that all the buildings had been burned.

After dinner, at noon, Erickson and his men went over and looking around found the body of Weiker lying as described.

Herman Weiker, a young son of the dead man, told Constable L. E. Ham-mick, who had been at once sent for by Erickson, that his father had been summoned to appear at Didsbury to answer charges under the Neglected Children's Act, on March 6.

Weiker, it will be remembered, had an auction sale about two weeks ago.

He has been in this district about twenty years.

FARM FINANCING

THROUGHOUT Canada the Bank of Montreal is daily loaning funds to responsible farmers to assist them in their business.

This Bank is at all times prepared to advance loans on terms consistent with sound banking.

BANK OF MONTREAL

Established 1817

Total Assets in excess of \$830,000,000

Didsbury Branch: J. C. CLARKE, Manager
